

### NEW FLYER

In 1999, Al Merrick designed the Flyer, revolutionizing high performance surfing in small waves. For 2013 Channel Islands has modernized the Flyer into a shorter and wider package. This new plan-shape allows for the same volume in a shorter rail line. We kept the forgiving 2-stage rocker and added spiral vee starting in front of the fins to allow for rail-to-rail quickness. The signature Merrick hip provides a pivot point for tight arcs.

#### STANDARD

LENGTH	W	T	VOLUME
5'4	18 1/2	2 1/8	22.4
5'5	18 3/4	2 3/16	23.7
5'6	19	2 1/4	25.1
5'7	19 3/8	2 5/16	26.7
5'8	19 3/4	2 3/8	28.4
5'9	20	2 3/8	29.2
5'10	20 1/4	2 7/16	30.7
